

November 2

To ensure we are **GREENE** & Growing

In July of 2015, **Wild Rose** opened the doors to its \$40 million casino & event center. The opening marked the culmination of one of the most comprehensive and productive economic development efforts in the county's history. People from all walks of life came together to pass a county-wide referendum allowing gambling. After gaining record approval for the first-time gaming vote, these local advocates, who represented every corner of the county, worked tirelessly with Wild Rose and Grow Greene County to attain a gaming license.

The enduring benefits of this partnership over the past six years can be seen in every city in Greene County.

approximately
\$9 million

for community projects including school upgrades, early learning center, city parks, pools, health care, fire and public safety equipment, libraries, trails, culture and economic development

approximately
\$5 million

in property taxes as well as gaming payments to city and county local governments

Why Vote?

Iowa law dictates that gaming activities may occur only in counties where the majority of citizens approve the "proposition" in a county-wide vote. Greene County held its initial vote in August 2013, which passed with a record 75.1% approval. Authorization lasts for 8 years. If the county-wide measure is approved in two successive referendums, no further votes are necessary.

Nov. 2nd **VOTE YES**

HOW TO VOTE

In Person Nov. 2 or **Absentee Ballot**

Your local polling place
8 am to 8 pm

Here's how

REGISTER
