

Why do I support the casino continuing? I racked my brain to think of something original to write or a point to be made that hasn't already been expressed. This is the best I could come up with. Can you imagine another business that would contribute \$9 million to the community along with \$5 million in property taxes?

Some might say, "Sure, but the casino makes that money off the people that gamble there."

True, but you know what? *You don't have to gamble there!* The casino has helped fund my school and community since 2015, and I have spent maybe \$200 in that time.

I may not have won any big prizes at the actual casino, but certainly Greene County has hit the jackpot.
